

WIN THE FIGHT AGAINST PRINT SERVERS

10 PROS AND CONS THAT'LL MAKE YOU
WANT TO K.O. YOUR PRINT SERVERS TODAY.

PROS OF KNOCKING OUT PRINT SERVERS

#1 Smash the Single Point of Failure

Face it: print servers have always been unworthy opponents. Reduce infrastructure and eliminate spooler crashes for good.

#2 Unite Forces in One Centralized Console

Consolidate your print environment and address every print management task from a single console—no matter where you are.

#3 Dodge Potential Security Attacks

Protect printed documents end-to-end and conquer print spooler vulnerabilities once and for all.

#4 Slash Scripts and GPO Deployments

Automatically deploy printers to end users without scripts, GPOs, or button mashing.

#5 Print on the Move

Enable users to access network printers automatically when traveling between offices and print securely from anywhere in the world.

73%

of organizations are expecting to increase cloud-based print management usage by 2025.

The Mystical Forest

The Grimy Dungeon

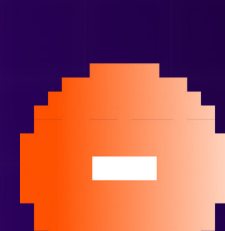

The Arctic Tundra

The Treasure Chamber

The Flesh Pits

CONS OF KNOCKING OUT PRINT SERVERS

#1 Trying to Break Your New High Score

You'll be setting new personal records now that managing your printers and users takes just a few clicks.

#2 Finding a Place to Put Your Old User Manuals

Sorry to take away the joy of reading instruction manuals. Try putting them next to the manuals for every new hire laptop you save for some reason.

#3 Choosing Your Next Boss Fight

You've already beaten the final boss... or have you? Deciding which foe to tackle next is no easy feat.

Maybe it's finally time to challenge your work boss for a raise?

#4 Too Many Credits to Know What to Do With

You're under pressure because you now have extra budget and have to spend it all before the end of the year. Could life get any worse?

#5 Your End Users Are Playing Solo

Users can install printers themselves without your team's help, and the office is dead quiet. You might actually wish the phone rang sometimes...

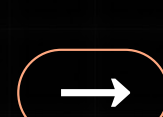

71%

of Vasion Print customers reduced time spent on print management by more than half.*
