

Drive Your Digital Transformation

Take Action with Vasion Automate

Kickstart Your Digital Journey

Does your organization feel stuck with legacy technology, limited resources, and budget constraints? Do piles of paper documents and manual processes slow you down?

With Vasion Automate, you no longer have to wrestle with:

- The complexity of combining print and digital processes
- Getting bogged down by manual and repetitive tasks
- Security risk and data loss from document mishandling
- Siloed systems that keep your teams disconnected
- Print servers and print-related support tickets

Now anyone can automate processes across teams to bring speed and visibility to work. Vasion Automate is the affordable, easy-to-use SaaS solution that bridges the gap between print environments and digital work. Serverless printing, now combined with online forms and workflows, captures and moves the right data, to the right people, at exactly the right time. Vasion Automate allows you to drive digital transformation wherever you sit.

KEY BENEFITS

✦ Unified Platform

Gain instant access to Vasion Automate with a PrinterLogic instance—no additional setup is required.

✦ Automate Tasks

Utilize Vasion Automate's no-code workflow designer to streamline tasks, boost collaboration, and remove unnecessary delays.

✦ Gather Data

Upload or capture data with forms to launch business workflows.

✦ Cost-effective

Reduce the cost and upkeep of legacy systems by using Vasion Automate, a single platform for print and other daily processes.

“Vasion Automate brings the print and digital worlds together, giving you the tools you need to help your organization scale. Automate is the first solution to bridge that gap; anyone can use it without breaking the bank.”

Corey Ercanbrack, Vasion Chief Product & Technology Officer

One Solution to Unlock True Operational Efficiency

The next chapter of your digital transformation journey starts with Vasion Automate. In just weeks, witness the transformation that will propel your business into a digital future, unlocking new potential and driving lasting success.

Vasion Print

With Print (formerly PrinterLogic), ditch costly legacy print architecture and move to a direct IP print environment. Reduce your attack surface, keep data secure, and lose the complex infrastructure that holds you back while gaining more control with centralized management. Key Print features include seamless print deploy and driver management, reporting, simplified scanning, IdP integrations, rule-based access controls and more! Also available as add-ons to Vasion Print are Advanced Security, Cost Management, and Output Management capabilities.

Vasion Forms

Effortlessly build fully customizable forms tailored to your business needs, gathering data and approvals at just the right time.

Vasion Signature

Incorporate Vasion Signature within your forms to provide approvals, offer letters, or waivers. Your organization now has a seamless experience for gathering and storing the decisions that matter most.

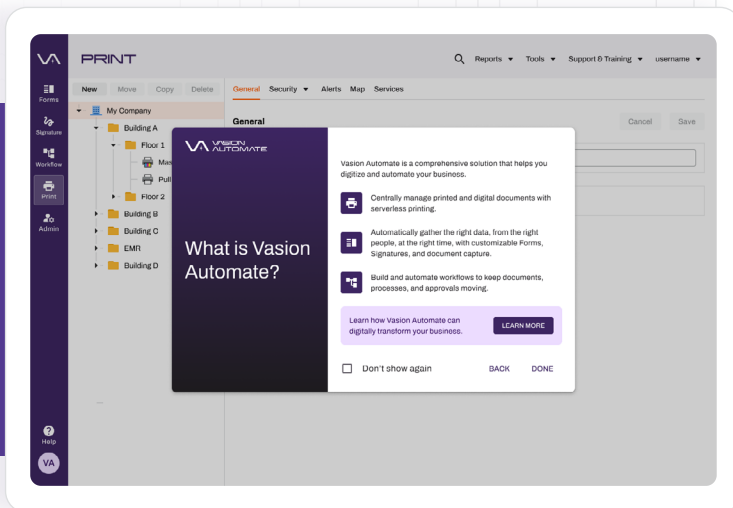

Vasion Simplified Scanning

Simplified Scanning, available through Vasion Print, offers a seamless and efficient way to convert paper documents into digital files. Enhance productivity, security, collaboration, and document management while reducing costs and environmental impact.

Vasion Workflow

Say goodbye to bottlenecks and hello to streamlined processes. Vasion Automate's all-in-one, no-code workflow designer allows anyone to create workflows that remove manual processes, repetitive tasks, and unnecessary delays.

Lead your organization's digital transformation with Vasion Automate.
